

## Military Weapons Dataset

ID: 1

Name: BrahMos Mk4 Mod8

Type: Missiles

Country: India

Range (km): 793

Introduced: 1963

Description: BrahMos Mk4 Mod8 is a missiles developed by India and introduced in 1963. It has an operational range of approximately 793 km.

-----

ID: 2

Name: UH-60 Black Hawk Mk3 Mod2

Type: Helicopters

Country: France

Range (km): 1263

Introduced: 2011

Description: UH-60 Black Hawk Mk3 Mod2 is a helicopters developed by France and introduced in 2011. It has an operational range of approximately 1263 km.

-----

ID: 3

Name: Challenger 2 Mk4 Mod5

Type: Tanks

Country: Turkey

Range (km): 400

Introduced: 2013

Description: Challenger 2 Mk4 Mod5 is a tanks developed by Turkey and introduced in 2013. It has an operational range

of approximately 400 km.

---

ID: 4

Name: MQ-9 Reaper Mk2 Mod3

Type: Drones

Country: USA

Range (km): 394

Introduced: 1974

Description: MQ-9 Reaper Mk2 Mod3 is a drones developed by USA and introduced in 1974. It has an operational range of approximately 394 km.

---

ID: 5

Name: BrahMos Mk1 Mod2

Type: Missiles

Country: UK

Range (km): 550

Introduced: 2020

Description: BrahMos Mk1 Mod2 is a missiles developed by UK and introduced in 2020. It has an operational range of approximately 550 km.

---

ID: 6

Name: Mi-24 Mk2 Mod7

Type: Helicopters

Country: UK

Range (km): 1205

Introduced: 1993

Description: Mi-24 Mk2 Mod7 is a helicopters developed by UK and introduced in 1993. It has an operational range of approximately 1205 km.

-----

ID: 7

Name: Su-57 Mk4 Mod2

Type: Jets

Country: India

Range (km): 4765

Introduced: 1973

Description: Su-57 Mk4 Mod2 is a jets developed by India and introduced in 1973. It has an operational range of approximately 4765 km.

-----

ID: 8

Name: M1911 Mk4 Mod4

Type: Guns

Country: India

Range (km): 175

Introduced: 1972

Description: M1911 Mk4 Mod4 is a guns developed by India and introduced in 1972. It has an operational range of approximately 175 km.

-----

ID: 9

Name: M16 Mk5 Mod1

Type: Rifles

Country: Turkey

Range (km): 908

Introduced: 1996

Description: M16 Mk5 Mod1 is a rifles developed by Turkey and introduced in 1996. It has an operational range of approximately 908 km.

---

ID: 10

Name: MQ-9 Reaper Mk1 Mod2

Type: Drones

Country: USA

Range (km): 1371

Introduced: 2012

Description: MQ-9 Reaper Mk1 Mod2 is a drones developed by USA and introduced in 2012. It has an operational range of approximately 1371 km.

---

ID: 11

Name: Heron Mk3 Mod2

Type: Drones

Country: USA

Range (km): 455

Introduced: 2011

Description: Heron Mk3 Mod2 is a drones developed by USA and introduced in 2011. It has an operational range of approximately 455 km.

---

ID: 12

Name: BrahMos Mk4 Mod6

Type: Missiles

Country: UK

Range (km): 534

Introduced: 1966

Description: BrahMos Mk4 Mod6 is a missiles developed by UK and introduced in 1966. It has an operational range of approximately 534 km.

-----

ID: 13

Name: Steyr AUG Mk3 Mod3

Type: Rifles

Country: Germany

Range (km): 1334

Introduced: 1987

Description: Steyr AUG Mk3 Mod3 is a rifles developed by Germany and introduced in 1987. It has an operational range of approximately 1334 km.

-----

ID: 14

Name: Patriot Mk4 Mod0

Type: Missiles

Country: France

Range (km): 155

Introduced: 2023

Description: Patriot Mk4 Mod0 is a missiles developed by France and introduced in 2023. It has an operational range of approximately 155 km.

-----

ID: 15

Name: AH-64 Apache Mk2 Mod3

Type: Helicopters

Country: India

Range (km): 537

Introduced: 2023

Description: AH-64 Apache Mk2 Mod3 is a helicopters developed by India and introduced in 2023. It has an operational range of approximately 537 km.

-----

ID: 16

Name: Bayraktar TB2 Mk1 Mod5

Type: Drones

Country: Russia

Range (km): 531

Introduced: 2017

Description: Bayraktar TB2 Mk1 Mod5 is a drones developed by Russia and introduced in 2017. It has an operational range of approximately 531 km.

-----

ID: 17

Name: M1 Abrams Mk5 Mod3

Type: Tanks

Country: France

Range (km): 1251

Introduced: 2004

Description: M1 Abrams Mk5 Mod3 is a tanks developed by France and introduced in 2004. It has an operational range of approximately 1251 km.

-----

ID: 18

Name: F-22 Raptor Mk2 Mod9

Type: Jets

Country: UK

Range (km): 3613

Introduced: 2007

Description: F-22 Raptor Mk2 Mod9 is a jets developed by UK and introduced in 2007. It has an operational range of approximately 3613 km.

-----

ID: 19

Name: FAMAS Mk3 Mod1

Type: Rifles

Country: Russia

Range (km): 1081

Introduced: 2018

Description: FAMAS Mk3 Mod1 is a rifles developed by Russia and introduced in 2018. It has an operational range of approximately 1081 km.

-----

ID: 20

Name: Rafale Mk3 Mod2

Type: Jets

Country: China

Range (km): 2895

Introduced: 1990

Description: Rafale Mk3 Mod2 is a jets developed by China and introduced in 1990. It has an operational range of approximately 2895 km.

-----

ID: 21

Name: F-22 Raptor Mk3 Mod9

Type: Jets

Country: India

Range (km): 2674

Introduced: 2022

Description: F-22 Raptor Mk3 Mod9 is a jets developed by India and introduced in 2022. It has an operational range of approximately 2674 km.

-----

ID: 22

Name: Tomahawk Mk1 Mod9

Type: Missiles

Country: China

Range (km): 66

Introduced: 2008

Description: Tomahawk Mk1 Mod9 is a missiles developed by China and introduced in 2008. It has an operational range of approximately 66 km.

-----

ID: 23

Name: Leopard 2 Mk4 Mod1

Type: Tanks

Country: Sweden

Range (km): 337

Introduced: 2009

Description: Leopard 2 Mk4 Mod1 is a tanks developed by Sweden and introduced in 2009. It has an operational range of approximately 337 km.

-----

ID: 24

Name: Su-57 Mk3 Mod5

Type: Jets

Country: France

Range (km): 3906

Introduced: 1986

Description: Su-57 Mk3 Mod5 is a jets developed by France and introduced in 1986. It has an operational range of approximately 3906 km.

---

ID: 25

Name: Su-57 Mk4 Mod5

Type: Jets

Country: Israel

Range (km): 4083

Introduced: 2008

Description: Su-57 Mk4 Mod5 is a jets developed by Israel and introduced in 2008. It has an operational range of approximately 4083 km.

---

ID: 26

Name: Hellfire Mk5 Mod7

Type: Missiles

Country: USA

Range (km): 647

Introduced: 2015

Description: Hellfire Mk5 Mod7 is a missiles developed by USA and introduced in 2015. It has an operational range of approximately 647 km.

-----

ID: 27

Name: AK-47 Mk5 Mod7

Type: Rifles

Country: Russia

Range (km): 772

Introduced: 2020

Description: AK-47 Mk5 Mod7 is a rifles developed by Russia and introduced in 2020. It has an operational range of approximately 772 km.

-----

ID: 28

Name: Beretta M9 Mk1 Mod4

Type: Guns

Country: France

Range (km): 423

Introduced: 1980

Description: Beretta M9 Mk1 Mod4 is a guns developed by France and introduced in 1980. It has an operational range of approximately 423 km.

-----

ID: 29

Name: Glock 17 Mk5 Mod9

Type: Guns

Country: Russia

Range (km): 1135

Introduced: 2001

Description: Glock 17 Mk5 Mod9 is a guns developed by Russia and introduced in 2001. It has an operational range of

approximately 1135 km.

---

ID: 30

Name: Challenger 2 Mk1 Mod4

Type: Tanks

Country: Sweden

Range (km): 612

Introduced: 1986

Description: Challenger 2 Mk1 Mod4 is a tanks developed by Sweden and introduced in 1986. It has an operational range of approximately 612 km.

---

ID: 31

Name: UH-60 Black Hawk Mk2 Mod3

Type: Helicopters

Country: USA

Range (km): 1081

Introduced: 1963

Description: UH-60 Black Hawk Mk2 Mod3 is a helicopters developed by USA and introduced in 1963. It has an operational range of approximately 1081 km.

---

ID: 32

Name: Desert Eagle Mk4 Mod4

Type: Guns

Country: India

Range (km): 1141

Introduced: 1974

Description: Desert Eagle Mk4 Mod4 is a guns developed by India and introduced in 1974. It has an operational range of approximately 1141 km.

---

ID: 33

Name: Beretta M9 Mk3 Mod3

Type: Guns

Country: Russia

Range (km): 1098

Introduced: 1999

Description: Beretta M9 Mk3 Mod3 is a guns developed by Russia and introduced in 1999. It has an operational range of approximately 1098 km.

---

ID: 34

Name: Mi-24 Mk4 Mod3

Type: Helicopters

Country: India

Range (km): 243

Introduced: 1965

Description: Mi-24 Mk4 Mod3 is a helicopters developed by India and introduced in 1965. It has an operational range of approximately 243 km.

---

ID: 35

Name: Su-57 Mk4 Mod1

Type: Jets

Country: USA

Range (km): 3741

Introduced: 2010

Description: Su-57 Mk4 Mod1 is a jets developed by USA and introduced in 2010. It has an operational range of approximately 3741 km.

-----

ID: 36

Name: Mi-24 Mk2 Mod5

Type: Helicopters

Country: Germany

Range (km): 594

Introduced: 1985

Description: Mi-24 Mk2 Mod5 is a helicopters developed by Germany and introduced in 1985. It has an operational range of approximately 594 km.

-----

ID: 37

Name: M1 Abrams Mk1 Mod2

Type: Tanks

Country: Germany

Range (km): 524

Introduced: 2004

Description: M1 Abrams Mk1 Mod2 is a tanks developed by Germany and introduced in 2004. It has an operational range of approximately 524 km.

-----

ID: 38

Name: M1911 Mk3 Mod6

Type: Guns

Country: Germany

Range (km): 192

Introduced: 2011

Description: M1911 Mk3 Mod6 is a guns developed by Germany and introduced in 2011. It has an operational range of approximately 192 km.

-----

ID: 39

Name: Challenger 2 Mk5 Mod7

Type: Tanks

Country: Turkey

Range (km): 1453

Introduced: 2010

Description: Challenger 2 Mk5 Mod7 is a tanks developed by Turkey and introduced in 2010. It has an operational range of approximately 1453 km.

-----

ID: 40

Name: Rafale Mk3 Mod9

Type: Jets

Country: UK

Range (km): 4212

Introduced: 2018

Description: Rafale Mk3 Mod9 is a jets developed by UK and introduced in 2018. It has an operational range of approximately 4212 km.

-----

ID: 41

Name: Ka-52 Mk4 Mod1

Type: Helicopters

Country: Sweden

Range (km): 1066

Introduced: 1994

Description: Ka-52 Mk4 Mod1 is a helicopters developed by Sweden and introduced in 1994. It has an operational range of approximately 1066 km.

-----

ID: 42

Name: F-22 Raptor Mk3 Mod5

Type: Jets

Country: Turkey

Range (km): 2713

Introduced: 1988

Description: F-22 Raptor Mk3 Mod5 is a jets developed by Turkey and introduced in 1988. It has an operational range of approximately 2713 km.

-----

ID: 43

Name: Desert Eagle Mk3 Mod1

Type: Guns

Country: France

Range (km): 1123

Introduced: 1986

Description: Desert Eagle Mk3 Mod1 is a guns developed by France and introduced in 1986. It has an operational range of approximately 1123 km.

-----

ID: 44

Name: FAMAS Mk5 Mod6

Type: Rifles

Country: USA

Range (km): 317

Introduced: 1969

Description: FAMAS Mk5 Mod6 is a rifles developed by USA and introduced in 1969. It has an operational range of approximately 317 km.

-----

ID: 45

Name: T-90 Mk1 Mod1

Type: Tanks

Country: Turkey

Range (km): 1092

Introduced: 2017

Description: T-90 Mk1 Mod1 is a tanks developed by Turkey and introduced in 2017. It has an operational range of approximately 1092 km.

-----

ID: 46

Name: UH-60 Black Hawk Mk3 Mod6

Type: Helicopters

Country: Russia

Range (km): 1453

Introduced: 2018

Description: UH-60 Black Hawk Mk3 Mod6 is a helicopters developed by Russia and introduced in 2018. It has an operational range of approximately 1453 km.

-----

ID: 47

Name: Glock 17 Mk2 Mod2

Type: Guns

Country: India

Range (km): 638

Introduced: 1983

Description: Glock 17 Mk2 Mod2 is a guns developed by India and introduced in 1983. It has an operational range of approximately 638 km.

-----

ID: 48

Name: Challenger 2 Mk1 Mod7

Type: Tanks

Country: Russia

Range (km): 67

Introduced: 1975

Description: Challenger 2 Mk1 Mod7 is a tanks developed by Russia and introduced in 1975. It has an operational range of approximately 67 km.

-----

ID: 49

Name: M1911 Mk2 Mod3

Type: Guns

Country: Israel

Range (km): 1068

Introduced: 1997

Description: M1911 Mk2 Mod3 is a guns developed by Israel and introduced in 1997. It has an operational range of approximately 1068 km.

-----

ID: 50

Name: Leopard 2 Mk3 Mod8

Type: Tanks

Country: Germany

Range (km): 336

Introduced: 1995

Description: Leopard 2 Mk3 Mod8 is a tanks developed by Germany and introduced in 1995. It has an operational range of approximately 336 km.

---

ID: 51

Name: AK-47 Mk3 Mod1

Type: Rifles

Country: India

Range (km): 232

Introduced: 1966

Description: AK-47 Mk3 Mod1 is a rifles developed by India and introduced in 1966. It has an operational range of approximately 232 km.

---

ID: 52

Name: Rafale Mk5 Mod1

Type: Jets

Country: UK

Range (km): 2371

Introduced: 1987

Description: Rafale Mk5 Mod1 is a jets developed by UK and introduced in 1987. It has an operational range of approximately 2371 km.

-----  
ID: 53

Name: UH-60 Black Hawk Mk2 Mod9

Type: Helicopters

Country: India

Range (km): 63

Introduced: 1987

Description: UH-60 Black Hawk Mk2 Mod9 is a helicopters developed by India and introduced in 1987. It has an operational range of approximately 63 km.

-----

ID: 54

Name: FAMAS Mk5 Mod3

Type: Rifles

Country: China

Range (km): 1151

Introduced: 2010

Description: FAMAS Mk5 Mod3 is a rifles developed by China and introduced in 2010. It has an operational range of approximately 1151 km.

-----

ID: 55

Name: Wing Loong Mk1 Mod5

Type: Drones

Country: Turkey

Range (km): 630

Introduced: 2018

Description: Wing Loong Mk1 Mod5 is a drones developed by Turkey and introduced in 2018. It has an operational

range of approximately 630 km.

---

ID: 56

Name: FAMAS Mk4 Mod5

Type: Rifles

Country: Sweden

Range (km): 352

Introduced: 1985

Description: FAMAS Mk4 Mod5 is a rifles developed by Sweden and introduced in 1985. It has an operational range of approximately 352 km.

---

ID: 57

Name: Desert Eagle Mk2 Mod9

Type: Guns

Country: USA

Range (km): 1495

Introduced: 1987

Description: Desert Eagle Mk2 Mod9 is a guns developed by USA and introduced in 1987. It has an operational range of approximately 1495 km.

---

ID: 58

Name: Patriot Mk1 Mod6

Type: Missiles

Country: Sweden

Range (km): 555

Introduced: 1984

Description: Patriot Mk1 Mod6 is a missiles developed by Sweden and introduced in 1984. It has an operational range of approximately 555 km.

-----

ID: 59

Name: M1 Abrams Mk4 Mod6

Type: Tanks

Country: UK

Range (km): 283

Introduced: 2012

Description: M1 Abrams Mk4 Mod6 is a tanks developed by UK and introduced in 2012. It has an operational range of approximately 283 km.

-----

ID: 60

Name: Hellfire Mk5 Mod9

Type: Missiles

Country: Russia

Range (km): 589

Introduced: 1995

Description: Hellfire Mk5 Mod9 is a missiles developed by Russia and introduced in 1995. It has an operational range of approximately 589 km.

-----

ID: 61

Name: Bayraktar TB2 Mk1 Mod5

Type: Drones

Country: USA

Range (km): 829

Introduced: 1969

Description: Bayraktar TB2 Mk1 Mod5 is a drones developed by USA and introduced in 1969. It has an operational range of approximately 829 km.

-----

ID: 62

Name: Glock 17 Mk5 Mod9

Type: Guns

Country: China

Range (km): 453

Introduced: 1977

Description: Glock 17 Mk5 Mod9 is a guns developed by China and introduced in 1977. It has an operational range of approximately 453 km.

-----

ID: 63

Name: M1 Abrams Mk5 Mod0

Type: Tanks

Country: USA

Range (km): 716

Introduced: 2018

Description: M1 Abrams Mk5 Mod0 is a tanks developed by USA and introduced in 2018. It has an operational range of approximately 716 km.

-----

ID: 64

Name: MQ-9 Reaper Mk2 Mod2

Type: Drones

Country: Russia

Range (km): 941

Introduced: 1975

Description: MQ-9 Reaper Mk2 Mod2 is a drones developed by Russia and introduced in 1975. It has an operational range of approximately 941 km.

-----

ID: 65

Name: FAMAS Mk2 Mod6

Type: Rifles

Country: Russia

Range (km): 302

Introduced: 1970

Description: FAMAS Mk2 Mod6 is a rifles developed by Russia and introduced in 1970. It has an operational range of approximately 302 km.

-----

ID: 66

Name: Hellfire Mk1 Mod5

Type: Missiles

Country: UK

Range (km): 520

Introduced: 2005

Description: Hellfire Mk1 Mod5 is a missiles developed by UK and introduced in 2005. It has an operational range of approximately 520 km.

-----

ID: 67

Name: Wing Loong Mk1 Mod0

Type: Drones

Country: France

Range (km): 268

Introduced: 1996

Description: Wing Loong Mk1 Mod0 is a drones developed by France and introduced in 1996. It has an operational range of approximately 268 km.

-----

ID: 68

Name: M16 Mk4 Mod5

Type: Rifles

Country: Germany

Range (km): 451

Introduced: 2022

Description: M16 Mk4 Mod5 is a rifles developed by Germany and introduced in 2022. It has an operational range of approximately 451 km.

-----

ID: 69

Name: AK-47 Mk1 Mod6

Type: Rifles

Country: Sweden

Range (km): 1428

Introduced: 1993

Description: AK-47 Mk1 Mod6 is a rifles developed by Sweden and introduced in 1993. It has an operational range of approximately 1428 km.

-----

ID: 70

Name: T-90 Mk4 Mod8

Type: Tanks

Country: UK

Range (km): 555

Introduced: 2003

Description: T-90 Mk4 Mod8 is a tanks developed by UK and introduced in 2003. It has an operational range of approximately 555 km.

---

ID: 71

Name: UH-60 Black Hawk Mk1 Mod0

Type: Helicopters

Country: Russia

Range (km): 1035

Introduced: 1992

Description: UH-60 Black Hawk Mk1 Mod0 is a helicopters developed by Russia and introduced in 1992. It has an operational range of approximately 1035 km.

---

ID: 72

Name: Desert Eagle Mk2 Mod9

Type: Guns

Country: Israel

Range (km): 917

Introduced: 1991

Description: Desert Eagle Mk2 Mod9 is a guns developed by Israel and introduced in 1991. It has an operational range of approximately 917 km.

---

ID: 73

Name: Mi-24 Mk3 Mod7

Type: Helicopters

Country: Russia

Range (km): 1161

Introduced: 2000

Description: Mi-24 Mk3 Mod7 is a helicopters developed by Russia and introduced in 2000. It has an operational range of approximately 1161 km.

-----

ID: 74

Name: Wing Loong Mk1 Mod6

Type: Drones

Country: China

Range (km): 823

Introduced: 1988

Description: Wing Loong Mk1 Mod6 is a drones developed by China and introduced in 1988. It has an operational range of approximately 823 km.

-----

ID: 75

Name: Su-57 Mk4 Mod2

Type: Jets

Country: Germany

Range (km): 3858

Introduced: 1997

Description: Su-57 Mk4 Mod2 is a jets developed by Germany and introduced in 1997. It has an operational range of approximately 3858 km.

-----

ID: 76

Name: UH-60 Black Hawk Mk3 Mod3

Type: Helicopters

Country: Russia

Range (km): 105

Introduced: 1995

Description: UH-60 Black Hawk Mk3 Mod3 is a helicopters developed by Russia and introduced in 1995. It has an operational range of approximately 105 km.

-----

ID: 77

Name: Mi-24 Mk4 Mod9

Type: Helicopters

Country: France

Range (km): 255

Introduced: 2013

Description: Mi-24 Mk4 Mod9 is a helicopters developed by France and introduced in 2013. It has an operational range of approximately 255 km.

-----

ID: 78

Name: Heron Mk1 Mod3

Type: Drones

Country: France

Range (km): 467

Introduced: 1961

Description: Heron Mk1 Mod3 is a drones developed by France and introduced in 1961. It has an operational range of approximately 467 km.

---

ID: 79

Name: Patriot Mk1 Mod4

Type: Missiles

Country: China

Range (km): 1155

Introduced: 2002

Description: Patriot Mk1 Mod4 is a missiles developed by China and introduced in 2002. It has an operational range of approximately 1155 km.

---

ID: 80

Name: Rafale Mk2 Mod5

Type: Jets

Country: Germany

Range (km): 2114

Introduced: 2001

Description: Rafale Mk2 Mod5 is a jets developed by Germany and introduced in 2001. It has an operational range of approximately 2114 km.

---

ID: 81

Name: M1911 Mk2 Mod7

Type: Guns

Country: India

Range (km): 1099

Introduced: 2014

Description: M1911 Mk2 Mod7 is a guns developed by India and introduced in 2014. It has an operational range of

approximately 1099 km.

---

ID: 82

Name: M1 Abrams Mk4 Mod1

Type: Tanks

Country: France

Range (km): 883

Introduced: 2015

Description: M1 Abrams Mk4 Mod1 is a tanks developed by France and introduced in 2015. It has an operational range of approximately 883 km.

---

ID: 83

Name: MQ-9 Reaper Mk1 Mod5

Type: Drones

Country: Israel

Range (km): 4

Introduced: 1971

Description: MQ-9 Reaper Mk1 Mod5 is a drones developed by Israel and introduced in 1971. It has an operational range of approximately 4 km.

---

ID: 84

Name: AK-47 Mk5 Mod4

Type: Rifles

Country: Russia

Range (km): 1063

Introduced: 2018

Description: AK-47 Mk5 Mod4 is a rifles developed by Russia and introduced in 2018. It has an operational range of approximately 1063 km.

---

ID: 85

Name: Desert Eagle Mk2 Mod7

Type: Guns

Country: Russia

Range (km): 1395

Introduced: 1970

Description: Desert Eagle Mk2 Mod7 is a guns developed by Russia and introduced in 1970. It has an operational range of approximately 1395 km.

---

ID: 86

Name: FAMAS Mk1 Mod9

Type: Rifles

Country: Russia

Range (km): 400

Introduced: 2009

Description: FAMAS Mk1 Mod9 is a rifles developed by Russia and introduced in 2009. It has an operational range of approximately 400 km.

---

ID: 87

Name: BrahMos Mk1 Mod1

Type: Missiles

Country: Sweden

Range (km): 1290

Introduced: 1972

Description: BrahMos Mk1 Mod1 is a missiles developed by Sweden and introduced in 1972. It has an operational range of approximately 1290 km.

---

ID: 88

Name: Bayraktar TB2 Mk4 Mod6

Type: Drones

Country: India

Range (km): 636

Introduced: 1998

Description: Bayraktar TB2 Mk4 Mod6 is a drones developed by India and introduced in 1998. It has an operational range of approximately 636 km.

---

ID: 89

Name: Hellfire Mk5 Mod2

Type: Missiles

Country: India

Range (km): 479

Introduced: 2021

Description: Hellfire Mk5 Mod2 is a missiles developed by India and introduced in 2021. It has an operational range of approximately 479 km.

---

ID: 90

Name: T-90 Mk2 Mod3

Type: Tanks

Country: Israel

Range (km): 816

Introduced: 1966

Description: T-90 Mk2 Mod3 is a tanks developed by Israel and introduced in 1966. It has an operational range of approximately 816 km.

-----

ID: 91

Name: Challenger 2 Mk3 Mod6

Type: Tanks

Country: Sweden

Range (km): 1104

Introduced: 1993

Description: Challenger 2 Mk3 Mod6 is a tanks developed by Sweden and introduced in 1993. It has an operational range of approximately 1104 km.

-----

ID: 92

Name: JAS 39 Gripen Mk4 Mod8

Type: Jets

Country: Sweden

Range (km): 3386

Introduced: 1999

Description: JAS 39 Gripen Mk4 Mod8 is a jets developed by Sweden and introduced in 1999. It has an operational range of approximately 3386 km.

-----

ID: 93

Name: Patriot Mk2 Mod8

Type: Missiles

Country: Germany

Range (km): 306

Introduced: 1974

Description: Patriot Mk2 Mod8 is a missiles developed by Germany and introduced in 1974. It has an operational range of approximately 306 km.

-----

ID: 94

Name: FAMAS Mk3 Mod8

Type: Rifles

Country: France

Range (km): 883

Introduced: 1998

Description: FAMAS Mk3 Mod8 is a rifles developed by France and introduced in 1998. It has an operational range of approximately 883 km.

-----

ID: 95

Name: F-22 Raptor Mk4 Mod0

Type: Jets

Country: Russia

Range (km): 3201

Introduced: 2004

Description: F-22 Raptor Mk4 Mod0 is a jets developed by Russia and introduced in 2004. It has an operational range of approximately 3201 km.

-----

ID: 96

Name: Heron Mk1 Mod0

Type: Drones

Country: France

Range (km): 177

Introduced: 2012

Description: Heron Mk1 Mod0 is a drones developed by France and introduced in 2012. It has an operational range of approximately 177 km.

-----

ID: 97

Name: Glock 17 Mk1 Mod2

Type: Guns

Country: Germany

Range (km): 1445

Introduced: 1987

Description: Glock 17 Mk1 Mod2 is a guns developed by Germany and introduced in 1987. It has an operational range of approximately 1445 km.

-----

ID: 98

Name: BrahMos Mk1 Mod2

Type: Missiles

Country: UK

Range (km): 677

Introduced: 2008

Description: BrahMos Mk1 Mod2 is a missiles developed by UK and introduced in 2008. It has an operational range of approximately 677 km.

-----

ID: 99

Name: Leopard 2 Mk1 Mod5

Type: Tanks

Country: Israel

Range (km): 248

Introduced: 1987

Description: Leopard 2 Mk1 Mod5 is a tanks developed by Israel and introduced in 1987. It has an operational range of approximately 248 km.

-----

ID: 100

Name: AH-64 Apache Mk1 Mod5

Type: Helicopters

Country: UK

Range (km): 115

Introduced: 1966

Description: AH-64 Apache Mk1 Mod5 is a helicopters developed by UK and introduced in 1966. It has an operational range of approximately 115 km.

-----

ID: 101

Name: Steyr AUG Mk3 Mod7

Type: Rifles

Country: Turkey

Range (km): 264

Introduced: 1983

Description: Steyr AUG Mk3 Mod7 is a rifles developed by Turkey and introduced in 1983. It has an operational range of approximately 264 km.

-----

ID: 102

Name: Patriot Mk5 Mod5

Type: Missiles

Country: Russia

Range (km): 1273

Introduced: 1983

Description: Patriot Mk5 Mod5 is a missiles developed by Russia and introduced in 1983. It has an operational range of approximately 1273 km.

---

ID: 103

Name: Hellfire Mk3 Mod5

Type: Missiles

Country: Russia

Range (km): 794

Introduced: 2012

Description: Hellfire Mk3 Mod5 is a missiles developed by Russia and introduced in 2012. It has an operational range of approximately 794 km.

---

ID: 104

Name: JAS 39 Gripen Mk3 Mod4

Type: Jets

Country: India

Range (km): 4593

Introduced: 1990

Description: JAS 39 Gripen Mk3 Mod4 is a jets developed by India and introduced in 1990. It has an operational range of approximately 4593 km.

---

ID: 105

Name: BrahMos Mk5 Mod2

Type: Missiles

Country: Germany

Range (km): 622

Introduced: 2019

Description: BrahMos Mk5 Mod2 is a missiles developed by Germany and introduced in 2019. It has an operational range of approximately 622 km.

---

ID: 106

Name: Glock 17 Mk5 Mod6

Type: Guns

Country: China

Range (km): 1347

Introduced: 2009

Description: Glock 17 Mk5 Mod6 is a guns developed by China and introduced in 2009. It has an operational range of approximately 1347 km.

---

ID: 107

Name: Tomahawk Mk1 Mod3

Type: Missiles

Country: China

Range (km): 913

Introduced: 1997

Description: Tomahawk Mk1 Mod3 is a missiles developed by China and introduced in 1997. It has an operational range

of approximately 913 km.

---

ID: 108

Name: JAS 39 Gripen Mk1 Mod8

Type: Jets

Country: Russia

Range (km): 2749

Introduced: 2003

Description: JAS 39 Gripen Mk1 Mod8 is a jets developed by Russia and introduced in 2003. It has an operational range of approximately 2749 km.

---

ID: 109

Name: M1911 Mk2 Mod7

Type: Guns

Country: Russia

Range (km): 481

Introduced: 1981

Description: M1911 Mk2 Mod7 is a guns developed by Russia and introduced in 1981. It has an operational range of approximately 481 km.

---

ID: 110

Name: AH-64 Apache Mk4 Mod5

Type: Helicopters

Country: Israel

Range (km): 474

Introduced: 1968

Description: AH-64 Apache Mk4 Mod5 is a helicopters developed by Israel and introduced in 1968. It has an operational range of approximately 474 km.

-----

ID: 111

Name: Ka-52 Mk4 Mod8

Type: Helicopters

Country: Germany

Range (km): 1397

Introduced: 2019

Description: Ka-52 Mk4 Mod8 is a helicopters developed by Germany and introduced in 2019. It has an operational range of approximately 1397 km.

-----

ID: 112

Name: Hellfire Mk4 Mod9

Type: Missiles

Country: France

Range (km): 1350

Introduced: 2001

Description: Hellfire Mk4 Mod9 is a missiles developed by France and introduced in 2001. It has an operational range of approximately 1350 km.

-----

ID: 113

Name: Beretta M9 Mk4 Mod6

Type: Guns

Country: Turkey

Range (km): 1387

Introduced: 1977

Description: Beretta M9 Mk4 Mod6 is a guns developed by Turkey and introduced in 1977. It has an operational range of approximately 1387 km.

-----

ID: 114

Name: Challenger 2 Mk2 Mod8

Type: Tanks

Country: Turkey

Range (km): 1484

Introduced: 2008

Description: Challenger 2 Mk2 Mod8 is a tanks developed by Turkey and introduced in 2008. It has an operational range of approximately 1484 km.

-----

ID: 115

Name: T-90 Mk4 Mod0

Type: Tanks

Country: China

Range (km): 382

Introduced: 1985

Description: T-90 Mk4 Mod0 is a tanks developed by China and introduced in 1985. It has an operational range of approximately 382 km.

-----

ID: 116

Name: T-90 Mk5 Mod7

Type: Tanks

Country: France

Range (km): 416

Introduced: 1980

Description: T-90 Mk5 Mod7 is a tanks developed by France and introduced in 1980. It has an operational range of approximately 416 km.

-----

ID: 117

Name: BrahMos Mk4 Mod0

Type: Missiles

Country: China

Range (km): 752

Introduced: 1991

Description: BrahMos Mk4 Mod0 is a missiles developed by China and introduced in 1991. It has an operational range of approximately 752 km.

-----

ID: 118

Name: Steyr AUG Mk2 Mod2

Type: Rifles

Country: India

Range (km): 834

Introduced: 1984

Description: Steyr AUG Mk2 Mod2 is a rifles developed by India and introduced in 1984. It has an operational range of approximately 834 km.

-----

ID: 119

Name: Steyr AUG Mk3 Mod3

Type: Rifles

Country: Sweden

Range (km): 401

Introduced: 2017

Description: Steyr AUG Mk3 Mod3 is a rifles developed by Sweden and introduced in 2017. It has an operational range of approximately 401 km.

-----

ID: 120

Name: Patriot Mk4 Mod9

Type: Missiles

Country: France

Range (km): 212

Introduced: 1977

Description: Patriot Mk4 Mod9 is a missiles developed by France and introduced in 1977. It has an operational range of approximately 212 km.

-----

ID: 121

Name: Su-57 Mk3 Mod2

Type: Jets

Country: USA

Range (km): 2058

Introduced: 2021

Description: Su-57 Mk3 Mod2 is a jets developed by USA and introduced in 2021. It has an operational range of approximately 2058 km.

-----

ID: 122

Name: Beretta M9 Mk4 Mod4

Type: Guns

Country: UK

Range (km): 325

Introduced: 1964

Description: Beretta M9 Mk4 Mod4 is a guns developed by UK and introduced in 1964. It has an operational range of approximately 325 km.

-----

ID: 123

Name: Challenger 2 Mk4 Mod2

Type: Tanks

Country: UK

Range (km): 1045

Introduced: 1993

Description: Challenger 2 Mk4 Mod2 is a tanks developed by UK and introduced in 1993. It has an operational range of approximately 1045 km.

-----

ID: 124

Name: AH-64 Apache Mk5 Mod1

Type: Helicopters

Country: UK

Range (km): 338

Introduced: 1991

Description: AH-64 Apache Mk5 Mod1 is a helicopters developed by UK and introduced in 1991. It has an operational range of approximately 338 km.

-----

ID: 125

Name: Leopard 2 Mk4 Mod2

Type: Tanks

Country: India

Range (km): 1276

Introduced: 2009

Description: Leopard 2 Mk4 Mod2 is a tanks developed by India and introduced in 2009. It has an operational range of approximately 1276 km.

---

ID: 126

Name: Beretta M9 Mk4 Mod1

Type: Guns

Country: USA

Range (km): 920

Introduced: 1987

Description: Beretta M9 Mk4 Mod1 is a guns developed by USA and introduced in 1987. It has an operational range of approximately 920 km.

---

ID: 127

Name: Tomahawk Mk2 Mod0

Type: Missiles

Country: India

Range (km): 173

Introduced: 1993

Description: Tomahawk Mk2 Mod0 is a missiles developed by India and introduced in 1993. It has an operational range of approximately 173 km.

---

ID: 128

Name: Rafale Mk1 Mod1

Type: Jets

Country: USA

Range (km): 3104

Introduced: 1971

Description: Rafale Mk1 Mod1 is a jets developed by USA and introduced in 1971. It has an operational range of approximately 3104 km.

---

ID: 129

Name: AH-64 Apache Mk4 Mod0

Type: Helicopters

Country: India

Range (km): 204

Introduced: 1983

Description: AH-64 Apache Mk4 Mod0 is a helicopters developed by India and introduced in 1983. It has an operational range of approximately 204 km.

---

ID: 130

Name: MQ-9 Reaper Mk2 Mod3

Type: Drones

Country: Israel

Range (km): 149

Introduced: 2009

Description: MQ-9 Reaper Mk2 Mod3 is a drones developed by Israel and introduced in 2009. It has an operational range of approximately 149 km.

-----  
ID: 131

Name: M16 Mk5 Mod4

Type: Rifles

Country: Germany

Range (km): 914

Introduced: 2009

Description: M16 Mk5 Mod4 is a rifles developed by Germany and introduced in 2009. It has an operational range of approximately 914 km.

-----

ID: 132

Name: Rafale Mk2 Mod6

Type: Jets

Country: Israel

Range (km): 2720

Introduced: 2021

Description: Rafale Mk2 Mod6 is a jets developed by Israel and introduced in 2021. It has an operational range of approximately 2720 km.

-----

ID: 133

Name: Challenger 2 Mk1 Mod6

Type: Tanks

Country: Israel

Range (km): 889

Introduced: 2011

Description: Challenger 2 Mk1 Mod6 is a tanks developed by Israel and introduced in 2011. It has an operational range

of approximately 889 km.

---

ID: 134

Name: AH-64 Apache Mk5 Mod0

Type: Helicopters

Country: Israel

Range (km): 304

Introduced: 1984

Description: AH-64 Apache Mk5 Mod0 is a helicopters developed by Israel and introduced in 1984. It has an operational range of approximately 304 km.

---

ID: 135

Name: Steyr AUG Mk5 Mod7

Type: Rifles

Country: Germany

Range (km): 1309

Introduced: 2010

Description: Steyr AUG Mk5 Mod7 is a rifles developed by Germany and introduced in 2010. It has an operational range of approximately 1309 km.

---

ID: 136

Name: Glock 17 Mk5 Mod2

Type: Guns

Country: Turkey

Range (km): 615

Introduced: 2020

Description: Glock 17 Mk5 Mod2 is a guns developed by Turkey and introduced in 2020. It has an operational range of approximately 615 km.

-----

ID: 137

Name: MQ-9 Reaper Mk1 Mod3

Type: Drones

Country: Turkey

Range (km): 699

Introduced: 1981

Description: MQ-9 Reaper Mk1 Mod3 is a drones developed by Turkey and introduced in 1981. It has an operational range of approximately 699 km.

-----

ID: 138

Name: Bayraktar TB2 Mk3 Mod4

Type: Drones

Country: Sweden

Range (km): 764

Introduced: 1967

Description: Bayraktar TB2 Mk3 Mod4 is a drones developed by Sweden and introduced in 1967. It has an operational range of approximately 764 km.

-----

ID: 139

Name: Hellfire Mk1 Mod4

Type: Missiles

Country: China

Range (km): 606

Introduced: 1978

Description: Hellfire Mk1 Mod4 is a missiles developed by China and introduced in 1978. It has an operational range of approximately 606 km.

---

ID: 140

Name: MQ-9 Reaper Mk2 Mod4

Type: Drones

Country: India

Range (km): 487

Introduced: 1993

Description: MQ-9 Reaper Mk2 Mod4 is a drones developed by India and introduced in 1993. It has an operational range of approximately 487 km.

---

ID: 141

Name: MQ-9 Reaper Mk4 Mod2

Type: Drones

Country: UK

Range (km): 1218

Introduced: 1991

Description: MQ-9 Reaper Mk4 Mod2 is a drones developed by UK and introduced in 1991. It has an operational range of approximately 1218 km.

---

ID: 142

Name: Leopard 2 Mk1 Mod6

Type: Tanks

Country: India

Range (km): 1458

Introduced: 1963

Description: Leopard 2 Mk1 Mod6 is a tanks developed by India and introduced in 1963. It has an operational range of approximately 1458 km.

-----

ID: 143

Name: UH-60 Black Hawk Mk1 Mod8

Type: Helicopters

Country: China

Range (km): 1433

Introduced: 1994

Description: UH-60 Black Hawk Mk1 Mod8 is a helicopters developed by China and introduced in 1994. It has an operational range of approximately 1433 km.

-----

ID: 144

Name: Su-57 Mk5 Mod9

Type: Jets

Country: USA

Range (km): 3152

Introduced: 1986

Description: Su-57 Mk5 Mod9 is a jets developed by USA and introduced in 1986. It has an operational range of approximately 3152 km.

-----

ID: 145

Name: Su-57 Mk4 Mod8

Type: Jets

Country: Israel

Range (km): 3677

Introduced: 1999

Description: Su-57 Mk4 Mod8 is a jets developed by Israel and introduced in 1999. It has an operational range of approximately 3677 km.

-----

ID: 146

Name: Beretta M9 Mk2 Mod1

Type: Guns

Country: France

Range (km): 1122

Introduced: 2009

Description: Beretta M9 Mk2 Mod1 is a guns developed by France and introduced in 2009. It has an operational range of approximately 1122 km.

-----

ID: 147

Name: Tomahawk Mk5 Mod8

Type: Missiles

Country: India

Range (km): 32

Introduced: 1996

Description: Tomahawk Mk5 Mod8 is a missiles developed by India and introduced in 1996. It has an operational range of approximately 32 km.

-----

ID: 148

Name: Leopard 2 Mk1 Mod5

Type: Tanks

Country: India

Range (km): 964

Introduced: 1966

Description: Leopard 2 Mk1 Mod5 is a tanks developed by India and introduced in 1966. It has an operational range of approximately 964 km.

-----

ID: 149

Name: Heron Mk1 Mod7

Type: Drones

Country: Germany

Range (km): 13

Introduced: 1999

Description: Heron Mk1 Mod7 is a drones developed by Germany and introduced in 1999. It has an operational range of approximately 13 km.

-----

ID: 150

Name: BrahMos Mk4 Mod0

Type: Missiles

Country: Israel

Range (km): 1456

Introduced: 1984

Description: BrahMos Mk4 Mod0 is a missiles developed by Israel and introduced in 1984. It has an operational range of approximately 1456 km.

-----

ID: 151

Name: FAMAS Mk3 Mod5

Type: Rifles

Country: Sweden

Range (km): 899

Introduced: 1993

Description: FAMAS Mk3 Mod5 is a rifles developed by Sweden and introduced in 1993. It has an operational range of approximately 899 km.

-----

ID: 152

Name: AK-47 Mk3 Mod0

Type: Rifles

Country: Germany

Range (km): 1197

Introduced: 1996

Description: AK-47 Mk3 Mod0 is a rifles developed by Germany and introduced in 1996. It has an operational range of approximately 1197 km.

-----

ID: 153

Name: Challenger 2 Mk1 Mod7

Type: Tanks

Country: China

Range (km): 207

Introduced: 2006

Description: Challenger 2 Mk1 Mod7 is a tanks developed by China and introduced in 2006. It has an operational range of approximately 207 km.

-----

ID: 154

Name: Tomahawk Mk3 Mod6

Type: Missiles

Country: France

Range (km): 1405

Introduced: 1986

Description: Tomahawk Mk3 Mod6 is a missiles developed by France and introduced in 1986. It has an operational range of approximately 1405 km.

---

ID: 155

Name: Su-57 Mk5 Mod6

Type: Jets

Country: India

Range (km): 2749

Introduced: 1962

Description: Su-57 Mk5 Mod6 is a jets developed by India and introduced in 1962. It has an operational range of approximately 2749 km.

---

ID: 156

Name: Ka-52 Mk3 Mod0

Type: Helicopters

Country: Sweden

Range (km): 421

Introduced: 2007

Description: Ka-52 Mk3 Mod0 is a helicopters developed by Sweden and introduced in 2007. It has an operational range of approximately 421 km.

-----

ID: 157

Name: T-90 Mk2 Mod5

Type: Tanks

Country: China

Range (km): 26

Introduced: 2023

Description: T-90 Mk2 Mod5 is a tanks developed by China and introduced in 2023. It has an operational range of approximately 26 km.

-----

ID: 158

Name: Wing Loong Mk3 Mod8

Type: Drones

Country: Turkey

Range (km): 94

Introduced: 1974

Description: Wing Loong Mk3 Mod8 is a drones developed by Turkey and introduced in 1974. It has an operational range of approximately 94 km.

-----

ID: 159

Name: FAMAS Mk2 Mod9

Type: Rifles

Country: Turkey

Range (km): 943

Introduced: 2006

Description: FAMAS Mk2 Mod9 is a rifles developed by Turkey and introduced in 2006. It has an operational range of

approximately 943 km.

---

ID: 160

Name: JAS 39 Gripen Mk5 Mod8

Type: Jets

Country: India

Range (km): 3810

Introduced: 1995

Description: JAS 39 Gripen Mk5 Mod8 is a jets developed by India and introduced in 1995. It has an operational range of approximately 3810 km.

---

ID: 161

Name: Su-57 Mk5 Mod8

Type: Jets

Country: Turkey

Range (km): 4756

Introduced: 1990

Description: Su-57 Mk5 Mod8 is a jets developed by Turkey and introduced in 1990. It has an operational range of approximately 4756 km.

---

ID: 162

Name: Hellfire Mk5 Mod5

Type: Missiles

Country: UK

Range (km): 1169

Introduced: 1980

Description: Hellfire Mk5 Mod5 is a missiles developed by UK and introduced in 1980. It has an operational range of approximately 1169 km.

-----

ID: 163

Name: Hellfire Mk2 Mod6

Type: Missiles

Country: France

Range (km): 267

Introduced: 1973

Description: Hellfire Mk2 Mod6 is a missiles developed by France and introduced in 1973. It has an operational range of approximately 267 km.

-----

ID: 164

Name: T-90 Mk5 Mod1

Type: Tanks

Country: China

Range (km): 55

Introduced: 1972

Description: T-90 Mk5 Mod1 is a tanks developed by China and introduced in 1972. It has an operational range of approximately 55 km.

-----

ID: 165

Name: JAS 39 Gripen Mk5 Mod9

Type: Jets

Country: USA

Range (km): 3570

Introduced: 2014

Description: JAS 39 Gripen Mk5 Mod9 is a jets developed by USA and introduced in 2014. It has an operational range of approximately 3570 km.

---

ID: 166

Name: Wing Loong Mk4 Mod0

Type: Drones

Country: Germany

Range (km): 150

Introduced: 2005

Description: Wing Loong Mk4 Mod0 is a drones developed by Germany and introduced in 2005. It has an operational range of approximately 150 km.

---

ID: 167

Name: Mi-24 Mk5 Mod1

Type: Helicopters

Country: UK

Range (km): 1299

Introduced: 1992

Description: Mi-24 Mk5 Mod1 is a helicopters developed by UK and introduced in 1992. It has an operational range of approximately 1299 km.

---

ID: 168

Name: AH-64 Apache Mk1 Mod7

Type: Helicopters

Country: Germany

Range (km): 557

Introduced: 1980

Description: AH-64 Apache Mk1 Mod7 is a helicopters developed by Germany and introduced in 1980. It has an operational range of approximately 557 km.

-----

ID: 169

Name: M1 Abrams Mk3 Mod2

Type: Tanks

Country: Germany

Range (km): 146

Introduced: 1976

Description: M1 Abrams Mk3 Mod2 is a tanks developed by Germany and introduced in 1976. It has an operational range of approximately 146 km.

-----

ID: 170

Name: Heron Mk4 Mod7

Type: Drones

Country: China

Range (km): 250

Introduced: 1974

Description: Heron Mk4 Mod7 is a drones developed by China and introduced in 1974. It has an operational range of approximately 250 km.

-----

ID: 171

Name: Rafale Mk3 Mod2

Type: Jets

Country: India

Range (km): 3362

Introduced: 1964

Description: Rafale Mk3 Mod2 is a jets developed by India and introduced in 1964. It has an operational range of approximately 3362 km.

-----

ID: 172

Name: Hellfire Mk1 Mod4

Type: Missiles

Country: Israel

Range (km): 1486

Introduced: 2000

Description: Hellfire Mk1 Mod4 is a missiles developed by Israel and introduced in 2000. It has an operational range of approximately 1486 km.

-----

ID: 173

Name: FAMAS Mk2 Mod2

Type: Rifles

Country: India

Range (km): 717

Introduced: 2010

Description: FAMAS Mk2 Mod2 is a rifles developed by India and introduced in 2010. It has an operational range of approximately 717 km.

-----

ID: 174

Name: M1 Abrams Mk2 Mod4

Type: Tanks

Country: China

Range (km): 287

Introduced: 2007

Description: M1 Abrams Mk2 Mod4 is a tanks developed by China and introduced in 2007. It has an operational range of approximately 287 km.

-----

ID: 175

Name: AK-47 Mk1 Mod2

Type: Rifles

Country: China

Range (km): 415

Introduced: 1972

Description: AK-47 Mk1 Mod2 is a rifles developed by China and introduced in 1972. It has an operational range of approximately 415 km.

-----

ID: 176

Name: Bayraktar TB2 Mk1 Mod9

Type: Drones

Country: USA

Range (km): 972

Introduced: 1963

Description: Bayraktar TB2 Mk1 Mod9 is a drones developed by USA and introduced in 1963. It has an operational range of approximately 972 km.

-----

ID: 177

Name: Patriot Mk3 Mod3

Type: Missiles

Country: China

Range (km): 610

Introduced: 2019

Description: Patriot Mk3 Mod3 is a missiles developed by China and introduced in 2019. It has an operational range of approximately 610 km.

-----

ID: 178

Name: BrahMos Mk5 Mod6

Type: Missiles

Country: Turkey

Range (km): 691

Introduced: 1960

Description: BrahMos Mk5 Mod6 is a missiles developed by Turkey and introduced in 1960. It has an operational range of approximately 691 km.

-----

ID: 179

Name: F-22 Raptor Mk4 Mod4

Type: Jets

Country: India

Range (km): 3406

Introduced: 1965

Description: F-22 Raptor Mk4 Mod4 is a jets developed by India and introduced in 1965. It has an operational range of approximately 3406 km.

-----

ID: 180

Name: Heron Mk2 Mod0

Type: Drones

Country: Germany

Range (km): 1475

Introduced: 2009

Description: Heron Mk2 Mod0 is a drones developed by Germany and introduced in 2009. It has an operational range of approximately 1475 km.

---

ID: 181

Name: Mi-24 Mk1 Mod8

Type: Helicopters

Country: Germany

Range (km): 664

Introduced: 1993

Description: Mi-24 Mk1 Mod8 is a helicopters developed by Germany and introduced in 1993. It has an operational range of approximately 664 km.

---

ID: 182

Name: Patriot Mk2 Mod0

Type: Missiles

Country: UK

Range (km): 1282

Introduced: 2019

Description: Patriot Mk2 Mod0 is a missiles developed by UK and introduced in 2019. It has an operational range of approximately 1282 km.

-----  
ID: 183

Name: Hellfire Mk2 Mod4

Type: Missiles

Country: Germany

Range (km): 170

Introduced: 1963

Description: Hellfire Mk2 Mod4 is a missiles developed by Germany and introduced in 1963. It has an operational range of approximately 170 km.

-----

ID: 184

Name: M1911 Mk5 Mod9

Type: Guns

Country: UK

Range (km): 299

Introduced: 2002

Description: M1911 Mk5 Mod9 is a guns developed by UK and introduced in 2002. It has an operational range of approximately 299 km.

-----

ID: 185

Name: Steyr AUG Mk3 Mod8

Type: Rifles

Country: USA

Range (km): 965

Introduced: 1974

Description: Steyr AUG Mk3 Mod8 is a rifles developed by USA and introduced in 1974. It has an operational range of

approximately 965 km.

---

ID: 186

Name: M1 Abrams Mk1 Mod2

Type: Tanks

Country: India

Range (km): 542

Introduced: 1970

Description: M1 Abrams Mk1 Mod2 is a tanks developed by India and introduced in 1970. It has an operational range of approximately 542 km.

---

ID: 187

Name: Leopard 2 Mk1 Mod2

Type: Tanks

Country: Turkey

Range (km): 449

Introduced: 2011

Description: Leopard 2 Mk1 Mod2 is a tanks developed by Turkey and introduced in 2011. It has an operational range of approximately 449 km.

---

ID: 188

Name: T-90 Mk3 Mod8

Type: Tanks

Country: Germany

Range (km): 596

Introduced: 1984

Description: T-90 Mk3 Mod8 is a tanks developed by Germany and introduced in 1984. It has an operational range of approximately 596 km.

-----

ID: 189

Name: Glock 17 Mk3 Mod5

Type: Guns

Country: Germany

Range (km): 304

Introduced: 1970

Description: Glock 17 Mk3 Mod5 is a guns developed by Germany and introduced in 1970. It has an operational range of approximately 304 km.

-----

ID: 190

Name: Rafale Mk4 Mod7

Type: Jets

Country: China

Range (km): 4093

Introduced: 2014

Description: Rafale Mk4 Mod7 is a jets developed by China and introduced in 2014. It has an operational range of approximately 4093 km.

-----

ID: 191

Name: M1 Abrams Mk4 Mod9

Type: Tanks

Country: Germany

Range (km): 1258

Introduced: 1987

Description: M1 Abrams Mk4 Mod9 is a tanks developed by Germany and introduced in 1987. It has an operational range of approximately 1258 km.

-----

ID: 192

Name: Hellfire Mk3 Mod0

Type: Missiles

Country: Sweden

Range (km): 126

Introduced: 1972

Description: Hellfire Mk3 Mod0 is a missiles developed by Sweden and introduced in 1972. It has an operational range of approximately 126 km.

-----

ID: 193

Name: Wing Loong Mk3 Mod5

Type: Drones

Country: Sweden

Range (km): 1274

Introduced: 1990

Description: Wing Loong Mk3 Mod5 is a drones developed by Sweden and introduced in 1990. It has an operational range of approximately 1274 km.

-----

ID: 194

Name: T-90 Mk5 Mod6

Type: Tanks

Country: France

Range (km): 74

Introduced: 1989

Description: T-90 Mk5 Mod6 is a tanks developed by France and introduced in 1989. It has an operational range of approximately 74 km.

-----

ID: 195

Name: FAMAS Mk5 Mod5

Type: Rifles

Country: Germany

Range (km): 214

Introduced: 2017

Description: FAMAS Mk5 Mod5 is a rifles developed by Germany and introduced in 2017. It has an operational range of approximately 214 km.

-----

ID: 196

Name: F-22 Raptor Mk3 Mod5

Type: Jets

Country: USA

Range (km): 2688

Introduced: 1996

Description: F-22 Raptor Mk3 Mod5 is a jets developed by USA and introduced in 1996. It has an operational range of approximately 2688 km.

-----

ID: 197

Name: Ka-52 Mk3 Mod9

Type: Helicopters

Country: India

Range (km): 661

Introduced: 1990

Description: Ka-52 Mk3 Mod9 is a helicopters developed by India and introduced in 1990. It has an operational range of approximately 661 km.

-----

ID: 198

Name: Steyr AUG Mk1 Mod1

Type: Rifles

Country: Sweden

Range (km): 368

Introduced: 2006

Description: Steyr AUG Mk1 Mod1 is a rifles developed by Sweden and introduced in 2006. It has an operational range of approximately 368 km.

-----

ID: 199

Name: Beretta M9 Mk2 Mod1

Type: Guns

Country: China

Range (km): 807

Introduced: 2018

Description: Beretta M9 Mk2 Mod1 is a guns developed by China and introduced in 2018. It has an operational range of approximately 807 km.

-----

ID: 200

Name: AK-47 Mk5 Mod8

Type: Rifles

Country: Russia

Range (km): 888

Introduced: 1975

Description: AK-47 Mk5 Mod8 is a rifles developed by Russia and introduced in 1975. It has an operational range of approximately 888 km.

-----

ID: 201

Name: Ka-52 Mk4 Mod5

Type: Helicopters

Country: Israel

Range (km): 131

Introduced: 1970

Description: Ka-52 Mk4 Mod5 is a helicopters developed by Israel and introduced in 1970. It has an operational range of approximately 131 km.

-----

ID: 202

Name: Tomahawk Mk3 Mod5

Type: Missiles

Country: Germany

Range (km): 1460

Introduced: 1963

Description: Tomahawk Mk3 Mod5 is a missiles developed by Germany and introduced in 1963. It has an operational range of approximately 1460 km.

-----

ID: 203

Name: Ka-52 Mk4 Mod0

Type: Helicopters

Country: UK

Range (km): 1098

Introduced: 1989

Description: Ka-52 Mk4 Mod0 is a helicopters developed by UK and introduced in 1989. It has an operational range of approximately 1098 km.

-----

ID: 204

Name: Hellfire Mk4 Mod3

Type: Missiles

Country: Turkey

Range (km): 388

Introduced: 2011

Description: Hellfire Mk4 Mod3 is a missiles developed by Turkey and introduced in 2011. It has an operational range of approximately 388 km.

-----

ID: 205

Name: T-90 Mk5 Mod4

Type: Tanks

Country: UK

Range (km): 763

Introduced: 1987

Description: T-90 Mk5 Mod4 is a tanks developed by UK and introduced in 1987. It has an operational range of approximately 763 km.

-----

ID: 206

Name: T-90 Mk2 Mod5

Type: Tanks

Country: Sweden

Range (km): 710

Introduced: 1978

Description: T-90 Mk2 Mod5 is a tanks developed by Sweden and introduced in 1978. It has an operational range of approximately 710 km.

---

ID: 207

Name: AH-64 Apache Mk1 Mod3

Type: Helicopters

Country: Israel

Range (km): 764

Introduced: 2017

Description: AH-64 Apache Mk1 Mod3 is a helicopters developed by Israel and introduced in 2017. It has an operational range of approximately 764 km.

---

ID: 208

Name: Beretta M9 Mk4 Mod8

Type: Guns

Country: Israel

Range (km): 707

Introduced: 2019

Description: Beretta M9 Mk4 Mod8 is a guns developed by Israel and introduced in 2019. It has an operational range of approximately 707 km.

-----

ID: 209

Name: T-90 Mk4 Mod6

Type: Tanks

Country: India

Range (km): 434

Introduced: 1987

Description: T-90 Mk4 Mod6 is a tanks developed by India and introduced in 1987. It has an operational range of approximately 434 km.

-----

ID: 210

Name: Heron Mk3 Mod3

Type: Drones

Country: Russia

Range (km): 1231

Introduced: 2001

Description: Heron Mk3 Mod3 is a drones developed by Russia and introduced in 2001. It has an operational range of approximately 1231 km.
